# Vsebina predstavitve

---

- Namen Erazmus izmenjav
- Univerze, s katerimi sodeluje Katedra za družinsko medicino pri izmenjavi študentov
- Pregled izmenjav od leta 2005 dalje
- Etična načela
- Etične dileme
- Medicinska deontologija v okviru intenzivnega tečaja
- Zgled mentorja
- Zaključek

# ZAKAJ ERASMUS?

Glavni cilj programa Erasmus je organiziranje izmenjave študentov v okviru priznanih študijskih obdobjij, kar pomeni, da lahko študenti opravijo del svojega rednega študija ali študijsko prakso na eni izmed instituciji držav članic Evropske unije in Evropske skupnosti za prosto trgovino.

# Sodelovanje Katedre za družinsko medicino MF Ulj v okviru mreže NPHC

The screenshot shows a Microsoft Internet Explorer window displaying the homepage of the Network of Primary Health Care (NPHC). The title bar reads "Network of Primary Health Care - Windows Internet Explorer" and the address bar shows "http://www.nphc.info/". The page content features a large map of Europe with yellow-shaded countries, representing the "INTENSIVE PROGRAMME". Various European cities are labeled on the map, including Göteborg, Edinburgh, Nottingham, London, Niemeyer, Hannover, Düsseldorf, Gent, Vienna, Udine, Ljubljana, Monza, Nice, Kocaeli, and Antalya. To the left of the map, there is a vertical column of nine small images showing various European cityscapes. To the right, there is another vertical column of nine images, also showing European landmarks like castles, cathedrals, and landscapes. The NPHC logo, which includes a blue arrow pointing right and two yellow stars, is prominently displayed next to the map. Below the map, there is text for the "Exchange Programme for medical students all over Europe" and logos for the European Union and the Education and Culture DG. The browser interface includes standard menu bars (File, Edit, View, Favorites, Tools, Help), a toolbar with various icons, and a status bar at the bottom indicating "Done", "Internet", "100%", and other typical browser controls.

University of Ljubljana  
Medical Faculty  
Department of Family Medicine  
Poljanski nasip 58  
1000 Ljubljana  
**SLOVENIA**

**Local NPHC coordinator:**

Danica Rotar Pavlic, MD, MSc  
Senior Researcher and Assistant Teacher  
phone: +386 1 4386915  
fax: +386 1 4386910  
e-mail: [danica.rotar@quest.arnes.si](mailto:danica.rotar@quest.arnes.si)  
website: [www.drmed.org/katedra/index.php](http://www.drmed.org/katedra/index.php)

**Conditions Student Exchange:**

1. What is possible?
  - a) Research electives
  - b) Clerkships
2. Number of vacancies:  
2 per year
3. The terms for studying:  
1st of October to 15th of January and 15th of February to the end of May.
4. Structure of the study and teaching General Practice:  
University study in Ljubljana is currently organised in a way that allows General Practice topic. It has a new integrated curriculum. Knowledge, skills and attitudes are taught focussing on medical topics and themes ("blocks"). The clerkship for the 6th year students has a structured character with an introduction and evaluation programme. The student is actively involved (surgeries, home visits, nursing homes) in a general practice under the supervision of a general practitioner-teacher. Sufficient knowledge of the Slovenian language is demanded.
5. Language:

# Izmenjava na Univerzi Nijmegen, Nizozemska

# Etična načela

- Skrb ne le za študente ...

## **26. Člen Kodeksa medicinske deontologije Slovenije**

Solidarnost in tovarištvo med zdravstvenimi delavci se izraža tudi v tem, da zdravnik kolegialno skrbi za obolelega kolega, za obolele zdravstvene delavce in študente medicine.

- Predhodni razgovori (doc. Marš, prof. Švab, doc. Rotar Pavlič)
- S študenti si redno dopisujemo prek e-pošte.

# Pomembna etična načela

- Pogosto se za etiko nasploh, pa tudi za medicinsko etiko, kot izhodišče navajajo **štiri aksiomatična načela:**
  - delati dobro,
  - ne delati slabega,
  - biti pravičen in
  - spoštovati samoodločitev drugega.
- K temu dodajajo še tako imenovano **zlato načelo etike:** storiti drugemu samo tisto, kar želiš, da bi drugi storili tebi.

# Problemi pri izmenjavi

---

- Še več varovalk na strani mentorja
- Presoja znanja
- Jezikovne ovire
- Izbor bolnikov
- Mentorji delujejo na “etični pogon”

# Intenzivni poletni tečaj, organiziran v okviru mreže NPHC

- En dan namenjen deontološkim vprašanjem

# Delovni zvezek – logbook – je sestavni del intenzivnega tečaja

- Write a short paragraph of an ethical dilemma you have experienced in primary care?
  - How was it resolved?
- What do you see as the key ethical problems facing primary care in the 21<sup>st</sup> century?
- Select some of the dilemmas and explore some of the literature.
  - Euthanasia
  - Health care resources
  - Surrogacy
  - Cloning
  - Flu pandemic
- Do you have clinical ethics committees in your country?
  - What problems do they deal with?
  - Where can physicians go for advice?

# Misel namesto zaključka

---

Noben človek ne more biti dober učitelj, če ne čuti tople naklonjenosti do svojih učencev in pristne želje, da bi jim posredoval, kar sam ceni.

*Bertrand Russell*

*Tudi pri Erasmus izmenjavi veljajo enaka načela kot v okviru rednega študija tako za študente kot za mentorje*
